REMARKS:

Bill: Any suggestion re/ info in paras. 3 & 5? JWC

DO NOT HOLD PLEASE! Bill
little will have it ready for review tomorrow 29th

24 November 1961

TO: JOHN C. *just 28 Nov*FROM: *ad*

SUBJECT: PHOTOCHEMICAL SOLUTIONS LAB

1 We finished up the specification for the Photochemical Solutions Lab today. Next Friday we will send you five copies along with some general comments about prices, delivery and so forth. I think the five copies should be enough. Please let me know if you need more.

2 When we submit the spec, all work under the terms of that particular Technical Directive (Assignment III, Technical Directive I) will have been completed. We will close our account number 502-4-1 on that day.

3 It now occurs to me that you might want to give some thought to leaving the TD open for installation and manufacturing supervision. Inasmuch as the manufacturing contractor might be in this area, I suggest that he be given our name as technical coordinator. Within the terms of their contract to you, we should be able to keep them in line. In the event that you agree with this, I will send you in a cost estimate for this effort along with the spec.

STAT 4 New Subject: [] told me that Bill wanted him to come back to Washington during the week of the 27th or the 4th. One of the things they plan to discuss is new equipment for the Photo Lab. This brings up the point of TD coverage.

5 Since we will be closing out our account for the Photochemical Solutions Lab, we don't have an account to charge to. What they propose to discuss seems to fall into the category of the new TD. I would prefer to charge Chuck's time into a new account for Photographic Material Handling. Please advise if the TD is going through and if we should set up a new account for it.

6 Work on all aspects of the photo system seems to be going quite well. I am not sure about how much of this Chick and Dutch should be told. Perhaps we ought to set up a short project review for them sometime in the future.

7 I might be back in D. C. during the week of the 11th. If there is anything to be scheduled that is the week to do it.

/mg
